

## **An Easter Reflection from Fr Bello**

"The Lord has truly risen. He is risen indeed. Alleluia". An Easter greeting that reverberates in every person's heart, mind and the whole person. There are various ways of expressing this message: One can say it plainly as it happens in our daily conversation. The other one is saying it with conviction which I believe is the most effective way of expressing something very dear to us. St. Paul says: "If Christ has not been raised from the dead, then our preaching is without substance, and so is your faith (1 Cor 15:14). I can imagine when St. Paul proclaimed this to his audience. A loud voice was echoing to and preaching to the farthest end of the arena where he was preaching. A sharp focused on what he was saying, looking at everyone eyes. The crucified Christ is risen. Let's have our gaze on him. In him flowed the living water that refreshes our souls. In him is the source of healing from this Covid-19 the world's pandemic that affected humanity. Let our voice rise together in unison: The Lord is truly risen. He is risen indeed. Alleluia. Happy Easter, everyone.

HE IS RISEN  
*alleluia*
